

CLEMIFY

✨ Basic Plan

🧑 Managed Students Edition

Your English school, on autopilot.

The fun, no-fuss manual to everything your school gets — every tab, every button, every “wait, it does *that* too?!” moment. 😎

What is a “Managed Student”? 🤔

A **managed student** is a student who **never needs their own login**. 🙅 No email, no password, no “Teacher, I forgot my password AGAIN” 😫. Your school creates the student, assigns a teacher, and runs everything for them — while the student just shows up and learns.

No logins to forget

Zero passwords for students.
Zero reset emails. Zero drama.

Perfect for kids

Little learners without an email? No problem — they don't need one.

Parents in the loop

Parents get their own portal plus a simple “Did your child attend?” check.

Teacher confirms attendance

One tap on “**Student joined**” starts the class clock. Fair & tracked.

Any video platform

Our built-in classroom, Google Meet or Zoom — your choice, per class.

Safe & private

Student data stays inside your school. No inbox, no spam, no strangers.

💡 **In one sentence:** your school does the clicking, the student does the learning, the parent does the smiling. 😊

📖 How it works in 4 steps

1

Admin adds the student — name only, no email needed.

2

Assign a teacher and book classes (or let teachers book).

3

Teach! Teacher taps “Student joined” — attendance counts.

4

Everyone's informed: parents, admins & daily class reports.

Homework & Quiz Magic Links

“But if students don’t log in... how do they do homework?” 🤔 Great question! The teacher creates the homework or quiz, taps **Share link**, and sends it on WhatsApp (or anywhere). The student opens it on any phone — **no app, no account**.

 **WhatsApp**

Hi Ada! 📬 Here's this week's homework 📄

clemify.com/hw/7Kg...x2P

And your quiz 🧠 good luck! 🍀

clemify.com/quiz/Pz4...m9A

 **Quick check**

Your name: Ada Obi

Teacher's name: Ms. Brown

Open my homework 🚀

Homework links

Students read the task, attach answers and submit. The teacher sees it in the Homework tab, ready to mark. 📝

Quiz links

Start, answer, submit — scores land straight in the teacher's Quizzes tab. Instant feedback, zero paperwork. 🏆

Parent check links

After a class, parents can answer “**Did your child attend?**” — Yes ✅ or No ❌. A “No” goes to the admin to review.

Why the links are safe

Impossible to guess

Every link is a long secret code — nobody can “try” their way in.

Name check first

The student confirms their own name and their teacher's name.

5 wrong tries = locked

Too many wrong guesses lock the link for 15 minutes.

Expires on the due date

Links close at the end of the due day, in your school's time zone.

The Admin Dashboard Tour

Everything your school runs on, grouped the way you think. Grab a coffee ☕ — here we go!

Analytics

Overview

Your school at a glance — classes, teachers, students and today's activity.

Analytics

Revenue & growth charts — protected by your private 4-digit PIN 🔒.

Notifications

Every important event in one feed, so nothing slips through.

Messages

Chat with teachers privately or in groups — filter by Teachers, Students, Groups. Plus 📞 “Ring” to get someone's attention!

People

Sub-Admins

Add helpers who manage only the teachers you assign them.

Teachers

Invite, edit, set pay rates, see lessons & earnings. Download a PDF roster 📄.

Teacher Schedules

See every teacher's working hours and free slots side by side.

Students

Add managed students (name only!), top up class credits, track progress.

Parents

Invite parents to their own portal to follow classes, homework & certificates.

Applications

Review teacher job applications and accept the stars ★.

Assign Students

Pair students with teachers — a group chat for them is created automatically.

Finance

Payments

Teacher pay owed and paid, per class — no spreadsheets needed.

Class Pricing

Set your class packages and prices.

Disputes

“Class didn't happen?” Review both sides and decide fairly in one click.

Chat & Pronunciation Credits

PRO

AI practice credits for students who log in themselves.

Classes, Reports & Your Brand

Classes

All Classes

Every class, every status — and jump into any live class to watch.

Class Report NEW

Each day's completed & missed classes by teacher (A→Z). Emailed as a PDF every midnight! 🌙

Group Classes

One teacher, many students — seats, levels and attendance per student.

Bookings

Create one-off or repeating classes in seconds.

Parent Checks

Send "Did your child attend?" links and see every parent's answer.

Logged Classes

Classes teachers ran outside the app (site down? Zoom?) — approve before anyone is paid.

Recordings

Class videos per teacher & student, by date — plus Zoom/Meet links teachers saved.

Certificates

Beautiful certificates with your school's branding, ready to download.

Reviews & Progress Reports PRO

Student ratings and emailed progress reports need student logins.

Referrals PRO

"Invite a friend" rewards for logged-in students.

Settings

Branding

Your logo, colours and dashboard style — it's *your* school, after all. 🎨

Custom Domain

Use your own web address, like learn.yourschool.com.

Certificate Template

Signatures, colours and wording on every certificate.

Your Devices

See where you're signed in and log out any device remotely.

Midnight magic: every night you get the **Class Report** PDF by email — who taught, who attended, what was missed, and any old class whose result changed after a dispute (marked in **red** or **green**). Your teachers get their own copy too. 📧

The Teacher Dashboard Tour

Your teachers get a bright, friendly dashboard built for teaching — not for paperwork. 🧐

Dashboard

Today's classes, missed calls & new messages at the top — nothing gets missed.

My Classes

Upcoming classes with one big "Join" button.

Group Classes

Run group lessons and mark who attended.

Completed

Every finished class — and log a class held outside the app.

Schedule

Set working hours so the school books them at the right times.

Students

Their students and each one's progress.

Bookings

Accept or decline class requests.

Homework

Create tasks, share magic links 🔗, mark submissions.

Quizzes

Build quizzes (even with AI help 🤖), share links, see scores.

Vocabulary

Word lists for lessons and revision.

Messages

Chat with the admin and students' group chats — and 📞 Ring.

Payment

Earnings per class, clear and up to date.

Recordings

Class videos by student & date — or paste a Zoom/Meet recording link.

Profile

Photo, bio, Meet/Zoom links and specializations.

The Classroom

Built-in video, Google Meet or Zoom — every class gets the same superpowers:

Whiteboard

Draw, explain, erase — live with the student.

Lesson content

Upload a PDF and turn pages together.

Recording

Records in 8-minute parts that upload as you go — a crash never loses the class.

Fair attendance

Live timer & attendance bar so everyone knows where they stand.

“Student joined”

For managed students, the teacher’s tap starts the class clock.

Zoom & Meet links

Recorded elsewhere? Save the link so the admin can check.

Sleep-well-at-night security

Device-locked logins

A stolen login won’t work on another computer — it’s tied to the device.

New-device alerts

An email the moment your account signs in somewhere new.

Remote log-out

Lost a laptop? Sign it out from your phone and wipe the app’s data on it.

Analytics PIN

Revenue stays private; changing the PIN needs a code sent to your email.

Per-device notifications

Each device asks before notifying — logging out stops them instantly.

“Oops” button

Sent the wrong message? Delete it within 30 minutes. 🤪

So... shall we start teaching? 🎉

This is the pitch of our lives — and honestly, the platform backs it up. 😄 With the Basic plan you get:

- ✓ Managed students — **no logins, no stress**
- ✓ Homework & quiz **magic links** that work on any phone
- ✓ Parents kept in the loop with **attendance checks**
- ✓ A **daily class report** in your inbox every midnight
- ✓ Classes on our video room, **Google Meet or Zoom**
- ✓ Your logo, your colours, **your school**
