🗣️ Admin Dashboard Guide

✨ Basic Plan · Managed Students

Every tab. Every button. Real screenshots. 📸

Your step-by-step tour of the school admin dashboard — what each tab does and exactly how to use it from day one. 🚀

Made with ❤️ (and lots of ☕) by the Clemify team

CHAPTER 1 · THE BIG IDEA

What is a “Managed Student”? 🤔

A **managed student** never needs their own login. 🙌 No email, no password, no “Teacher, I forgot my password AGAIN” 😩. Your school creates the student and runs everything; the child just shows up and learns, and the **parent stays in the loop through simple links** on WhatsApp, Zalo or Facebook.

No logins to forget

Zero passwords for kids. Zero reset emails. Zero drama.

Perfect for kids

Little learners without an email? They don't need one.

Magic links

Homework and quizzes open from a link: no app, no account.

Parents confirm classes

A “Did your child attend?” link makes every class fair and proven.

A report after every class

Teachers write a summary; you send it to the family in one tap.

Safe & private

Links unlock only with the child's and teacher's names, and expire on time.

1

You add the student and assign a teacher

2

Teacher teaches, sets homework & quizzes

3

Parent gets the link on WhatsApp or Zalo

4

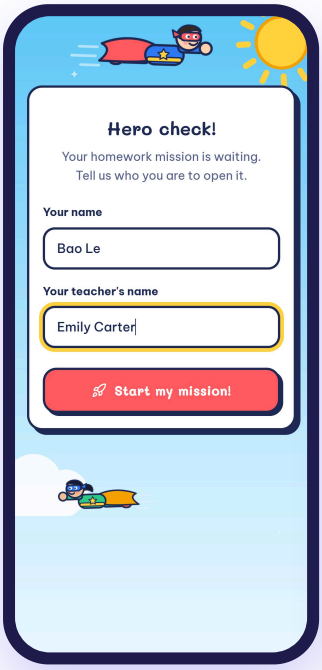

Child opens it, does the work, gets graded

💡 **In one sentence:** your school does the clicking, the student does the learning, the parent does the smiling. 😄 The next pages show exactly what parents and kids see on their phone. 👉

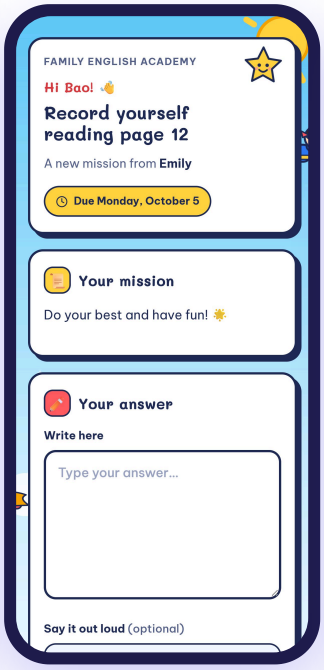

CHAPTER 1 · WHAT THE FAMILY SEES

Homework & quizzes by magic link 🦸

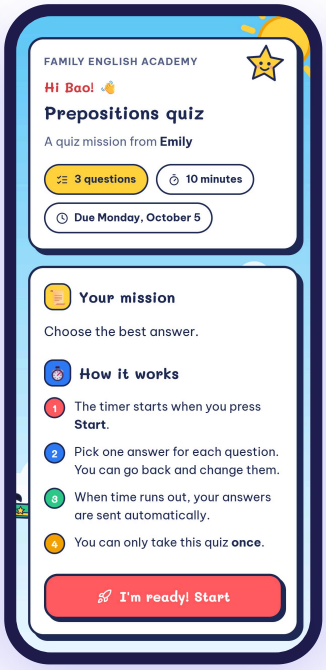

The teacher creates homework or a quiz, and you (or the teacher) send the link to the parent. The child opens it on any phone and goes on a little **"hero mission"**. These are real screens from Family English Academy:

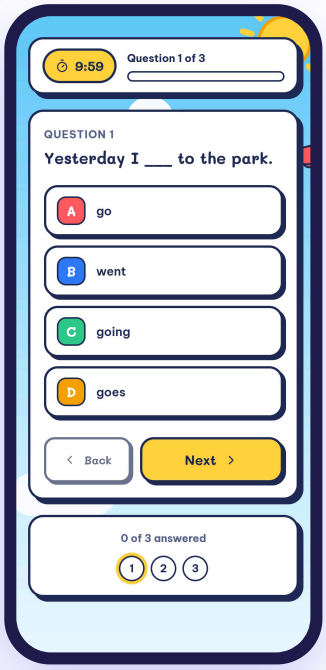

1 · Hero check
Type your name and your teacher's name to unlock.

2 · Homework mission
Write the answer, attach a photo or record your voice.

3 · Quiz mission
Number of questions, time limit and due date up front.

4 · Timed quiz
Big, colourful answers made for little fingers.

🔒 Secure by design

No passwords: the link opens only with the **child's name + teacher's name**. 5 wrong tries lock it for 15 minutes, and it **expires at the end of the due day**.

📲 One tap to send

In **Parent links** press **Copy message** (school, child, title, due date and link) or **WhatsApp** to open the parent's chat directly.

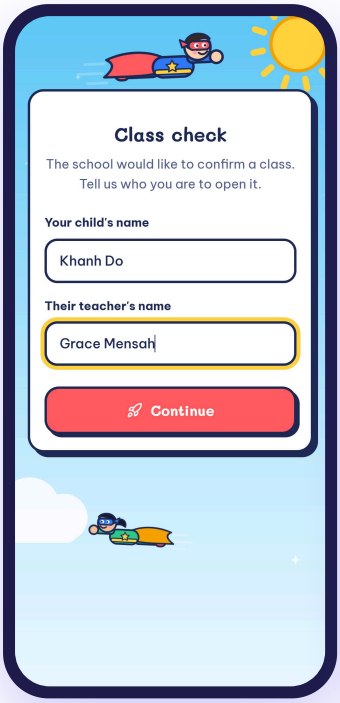

📊 Graded & tracked

Quizzes are scored automatically and the teacher grades homework. You see every status at a glance: **not done yet**, **submitted** or **graded**.

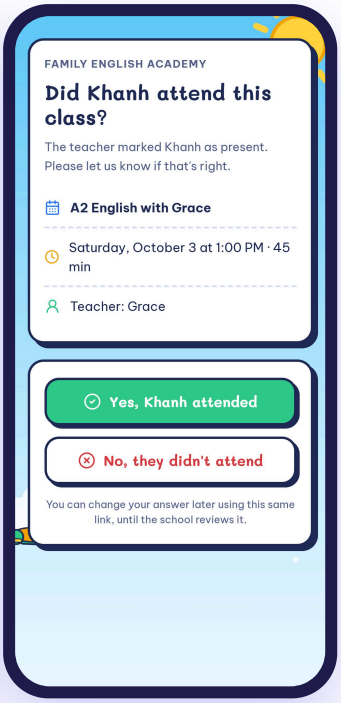

🎯 **Why parents love it:** no app to install, no password to remember. The link arrives in the chat they already use every day, and their child gets a fun mission instead of a boring worksheet. 🎉

CHAPTER 1 · TRUST AFTER EVERY CLASS

“Did your child attend?” ✅

Class check
The parent types the child's and teacher's names.

One tap answer
Yes or No: done in 5 seconds.

Managed students can't log in, so the **teacher confirms** the student joined, and the **parent double-checks** with one tap.

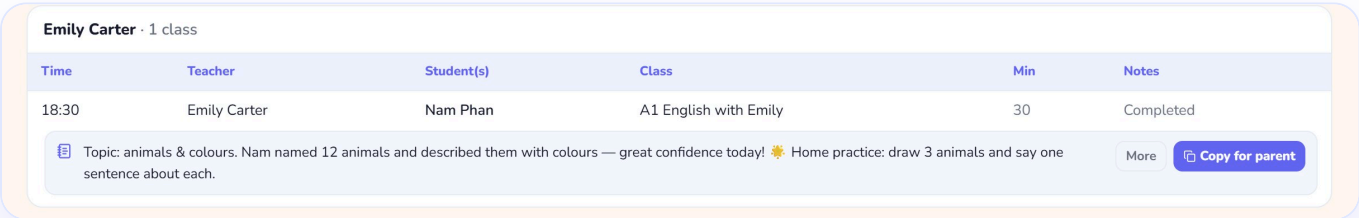

📨 Send the link from **Parent checks** (WhatsApp, Zalo, SMS…)

⏳ No reply in 4 days? The class simply stands.

⚖️ “No” opens a dispute. You have 3 days to settle it, or the class goes back to the student automatically.

🔁 Parents can change their answer until the school reviews it.

📝 …and a written report after every class NEW

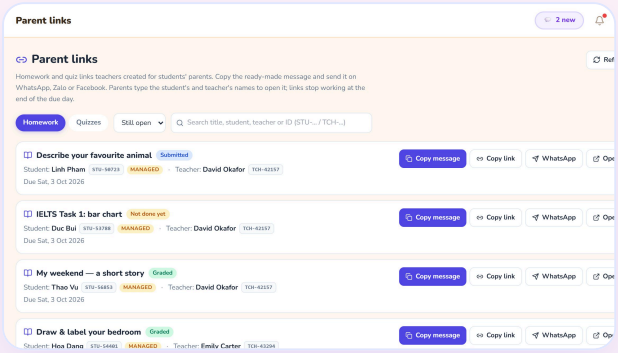

The teacher writes what was covered, how the child did and what to practise at home. In **Class Report**, press **Copy for parent** and paste it into WhatsApp: the class, date, teacher and summary arrive in one tidy message. 💗

FRESH OUT OF THE OVEN 📦

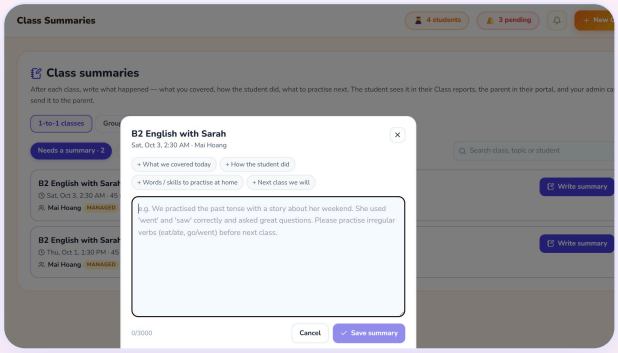

What's new NEW ✨

Our latest updates, built to keep parents involved and admins one step ahead. They work for managed (no-login) students and online students alike.

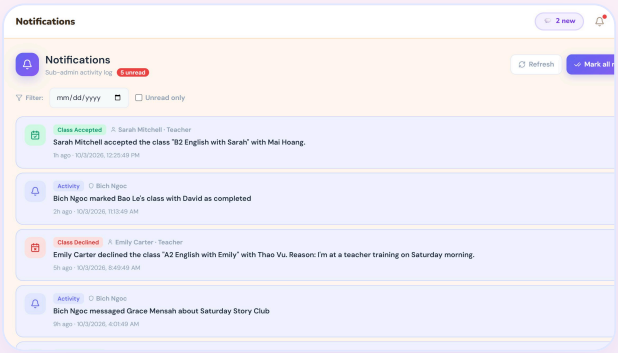

🔗 Parent links

Every homework and quiz link in one place. Filter, search by name or STU-/TCH- ID, then **Copy message**, **Copy link**, **WhatsApp** or **Open** to see what the parent sees.

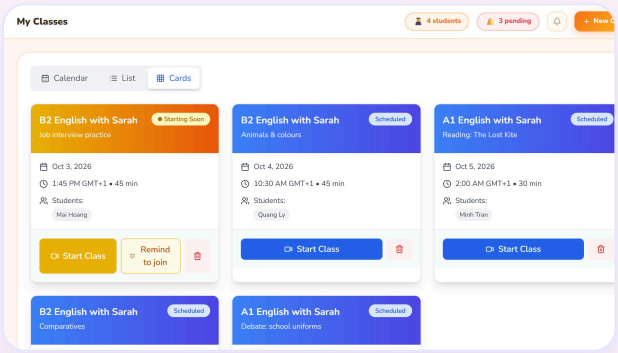

📝 Class summaries

After each class the teacher writes what happened, with quick-start prompts. A “Needs a summary” list means no class is forgotten, and group classes get one summary for everyone.

🔔 Booking replies

When a teacher accepts or declines a class you booked, you're notified instantly, with the reason for declines, so you can rebook fast.

⏰ Remind to join

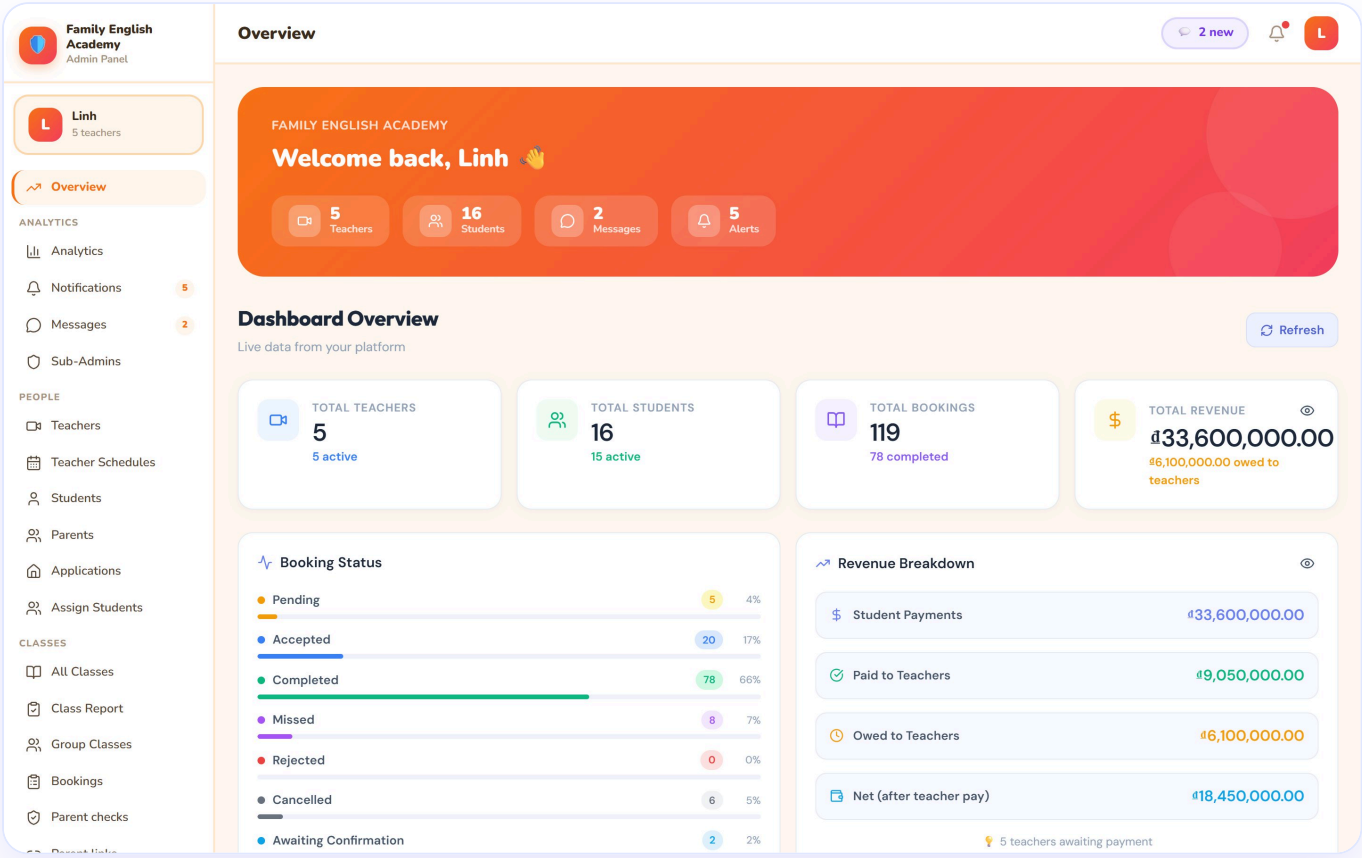

One button emails “your class has started” with a join button, from 30 minutes before until the end (max once every 3 minutes). Teachers never see the email address, and you decide per student who can send it.

👫 **Also new:** students see every report in their **Class reports** tab, and parents read each child's report in the **Parent portal**. Each parent sees only their own children.
